

Regarding Additions to Chris's Bust Size

As announced during the previous information disclosure, we are making additions to Chris's bust size.

通常時

巨乳時

You can see quite a difference by looking at the image.

Up until now, when Chris had huge breasts, she'd be simply treated as Chris with the negative status of "huge breasts," while her appearance in the game would be her standard image.

She is clothed in her standing pose for conversation, and the difference is slight, so no change was made.

However, there were many people who wanted huge breasts, and some event CGs have been completed.

It would be a waste not to use images we'd already drawn, so having prepared bust size as a difference, for battle stance images and event CGs, we're planning to have them reflect huge breasts.

to have them reflect huge breasts.game with the same appearance as before, only for the conversation parts of the game . (The effects of the negative status of huge breasts are being adjusted.)

By the way, the next information on "Chris Survival" is a little all over the place, so we'd like to create an information page that summarizes the story and system details.

At that time, we'd like to introduce an unreleased event CG, so please, be excited for it! (' ∇ `)
