

Prostitution System Introduction

New Money Man "Gehehe, I'm so lucky to buy a virgin.
I'm gonna make your pussy into one that I really like."

??? "Woah! Nice ass, man!"

This is the prostitution system that you've grown familiar with in the "Slave's Sword" series.
Regarding prostitution in this game as well, you're able to sell your body at brothels
in various towns.

In addition, we've made it so prostitution and rape can occur in various places,
such as in back alleys or slums at night, or at one's part-time job.

The prostitution system depends on the erotic status of Diana's mental state,
and her lines and facial expressions change in three stages.
(The reaction changes are like: Rookie Whore→ Veteran Whore → Nympho Whore)

In such places such as brothels where the market price of prostitutes is decided
according to those stages, and the amount of rewards you can receive when you
whore yourself out will also change.

When you play, I hope you enjoy looking around for where prostitution spots are in town(´ ▽ `)

Bonus

Recently, I'm trying to make not only games, but also audio works and
merchandise, making contacts and performing clerical work related to that, and
even started drawing practice, for how long, I don't know, in order to make my
own doujinshi, so I really don't have any time. (/ ・ ω ・) /

So, for the time being, I will reply to comments irregularly.

I have read all of the comments themselves, and I'm not alone, all of our staff,
such as Miyama and Kandenchi, are very encouraging,
so I would be very grateful if you would continue to support me. (´ ▽ `)
