

[Episode 1 Story] Wall Post #3

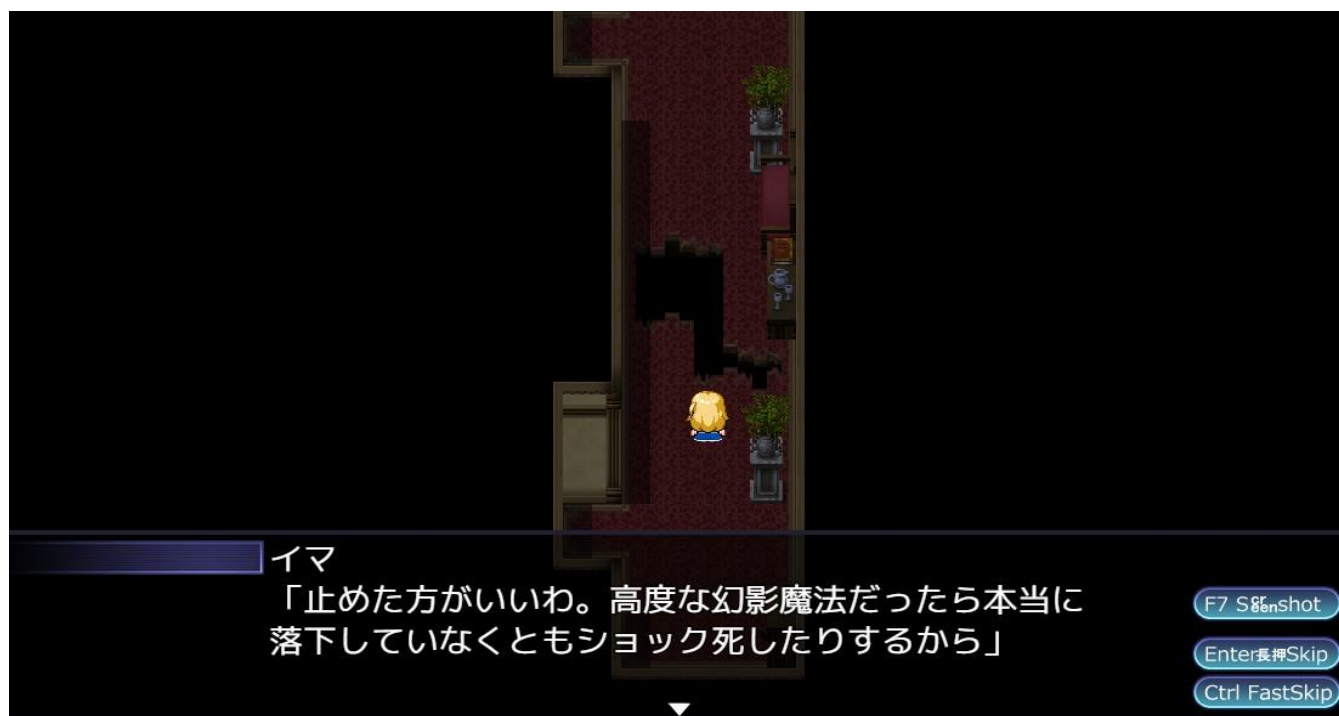

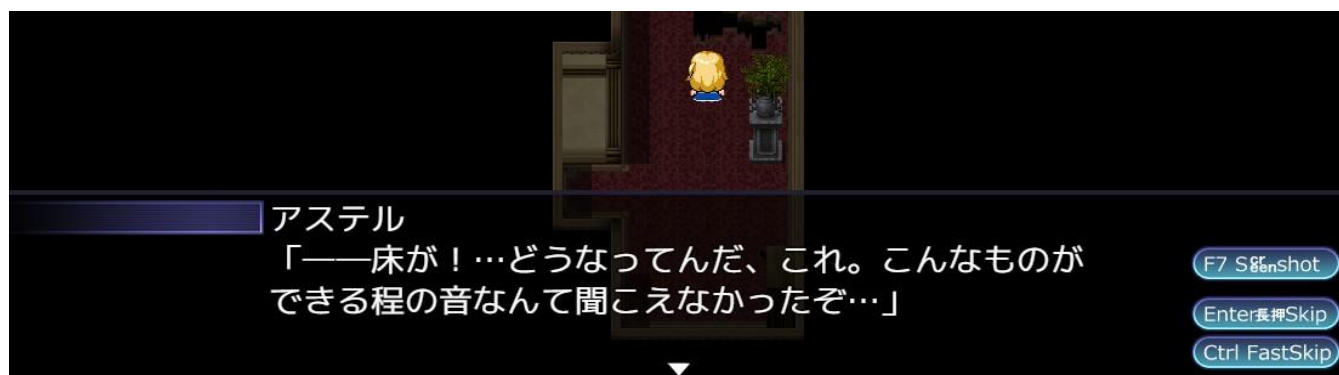

In the middle of the night, Ima wakes Aster up.

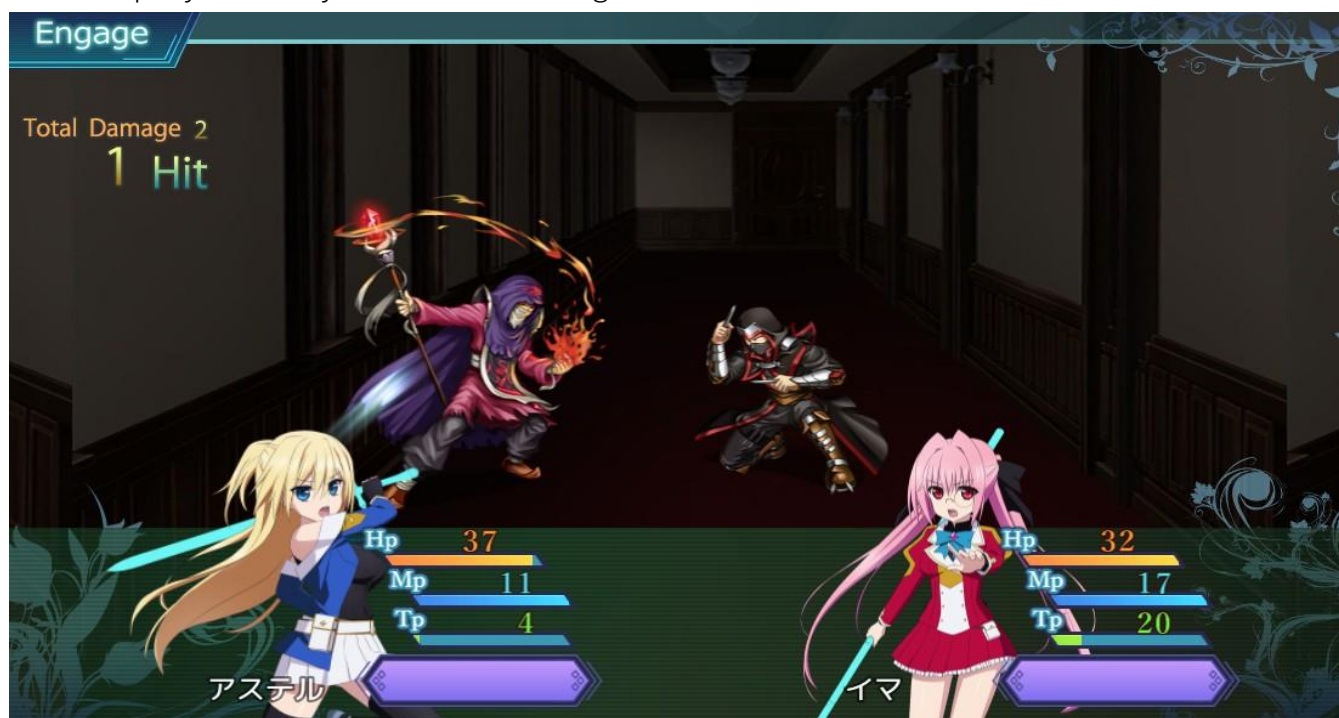

It seems that the company dormitory has already been surrounded.

Apparently, some illusory magic has been cast on the entire building…

The company dormitory has become a dungeon.

We notice a number of "thieves" inside the dorm.

First of all, while randomly taking them out, we should go around and check on the safety of the other employees.

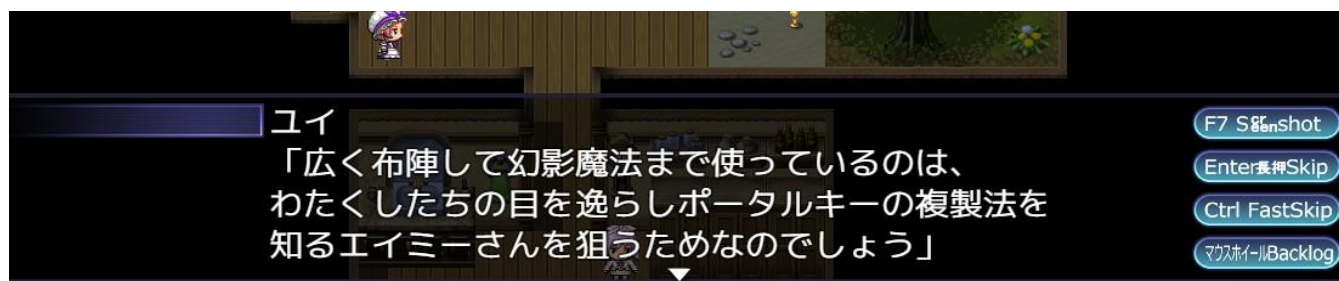

It looks like something's on Ima's mind...

Everyone else seems to be okay.

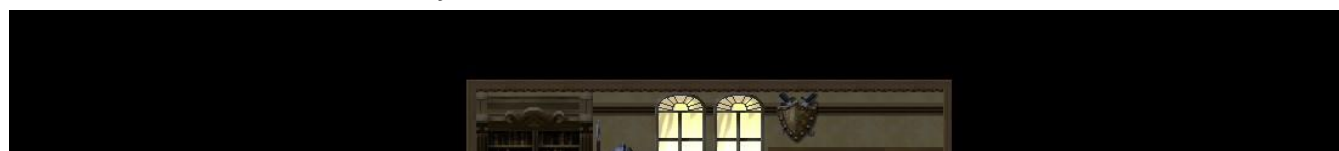

The real target of the thieves, who seemed to be after the Portal Key, was apparently the girl who knows how to duplicate it.

We have to hurry up and help her!

The two somehow arrive at Amy's room.

We square off against Ruta, who's shown her true colors.

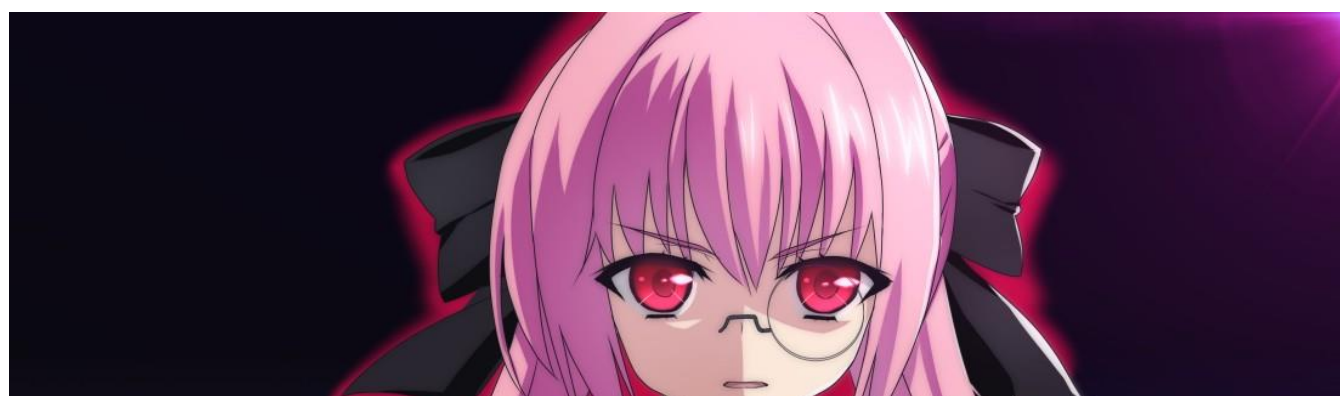

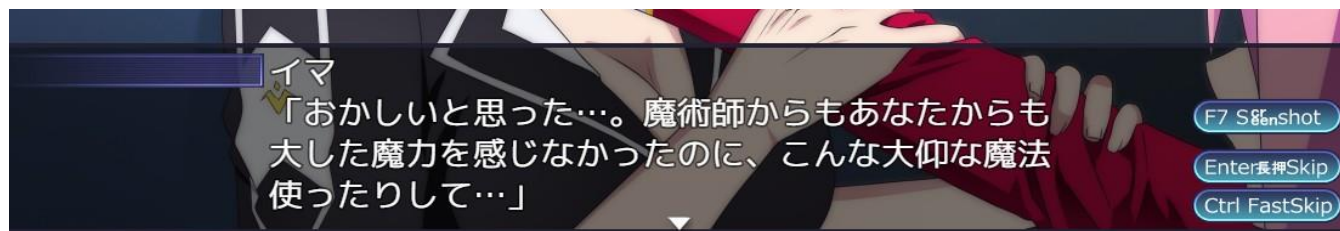

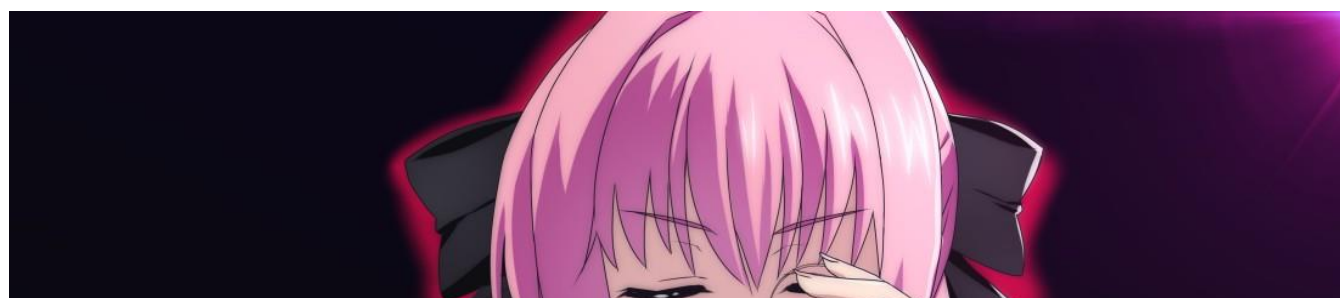

She attacks us, wielding her magical sword.

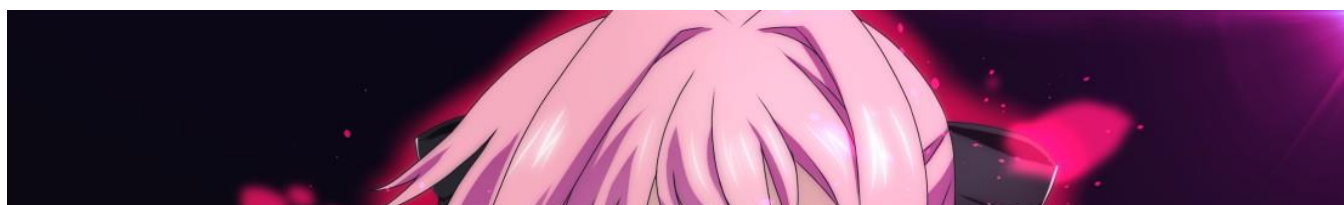

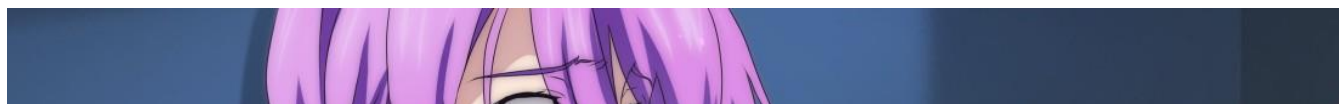

Ima runs her down. Something is off.

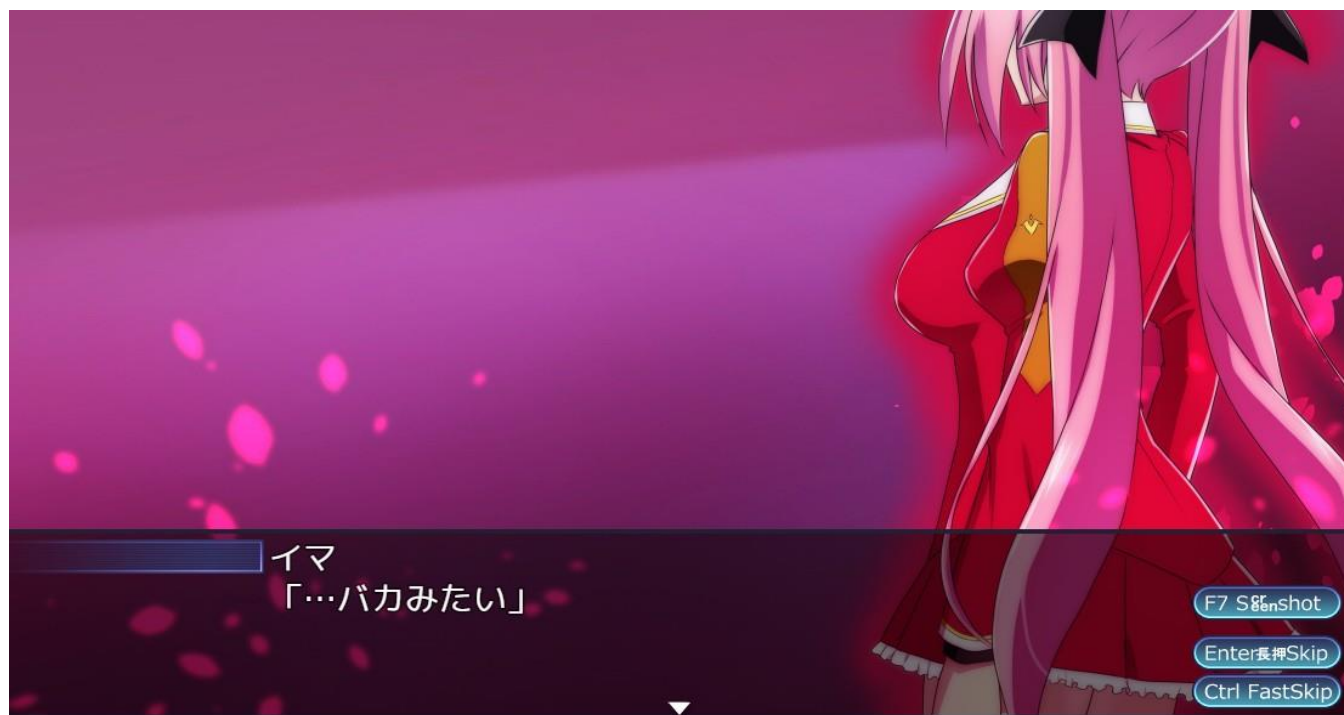

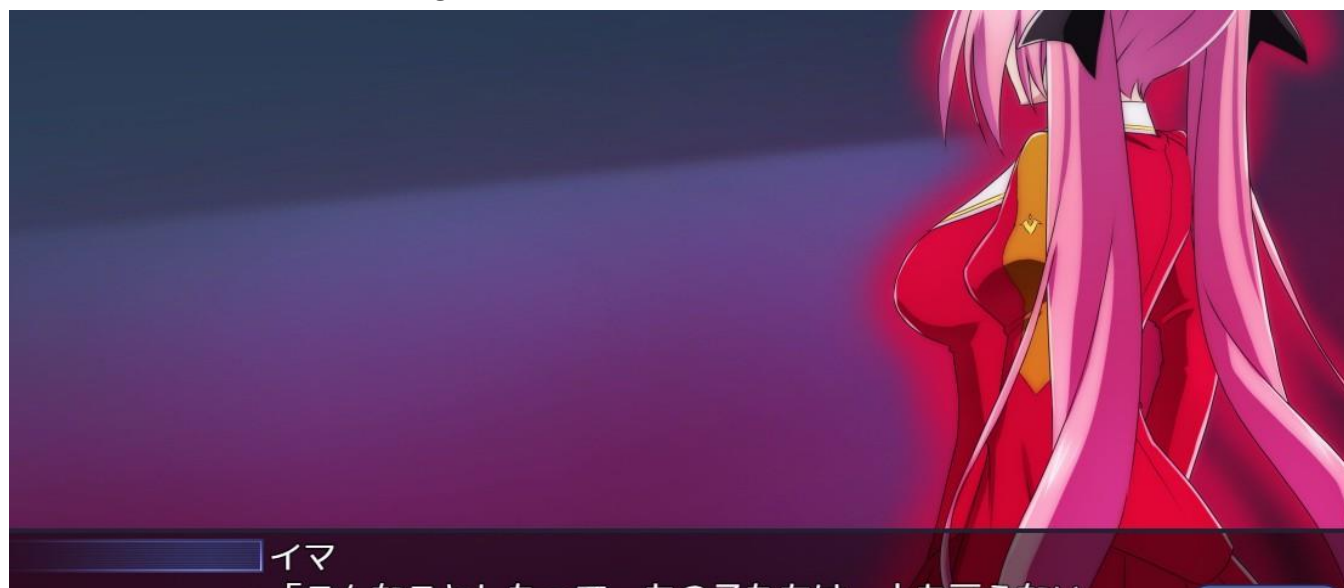

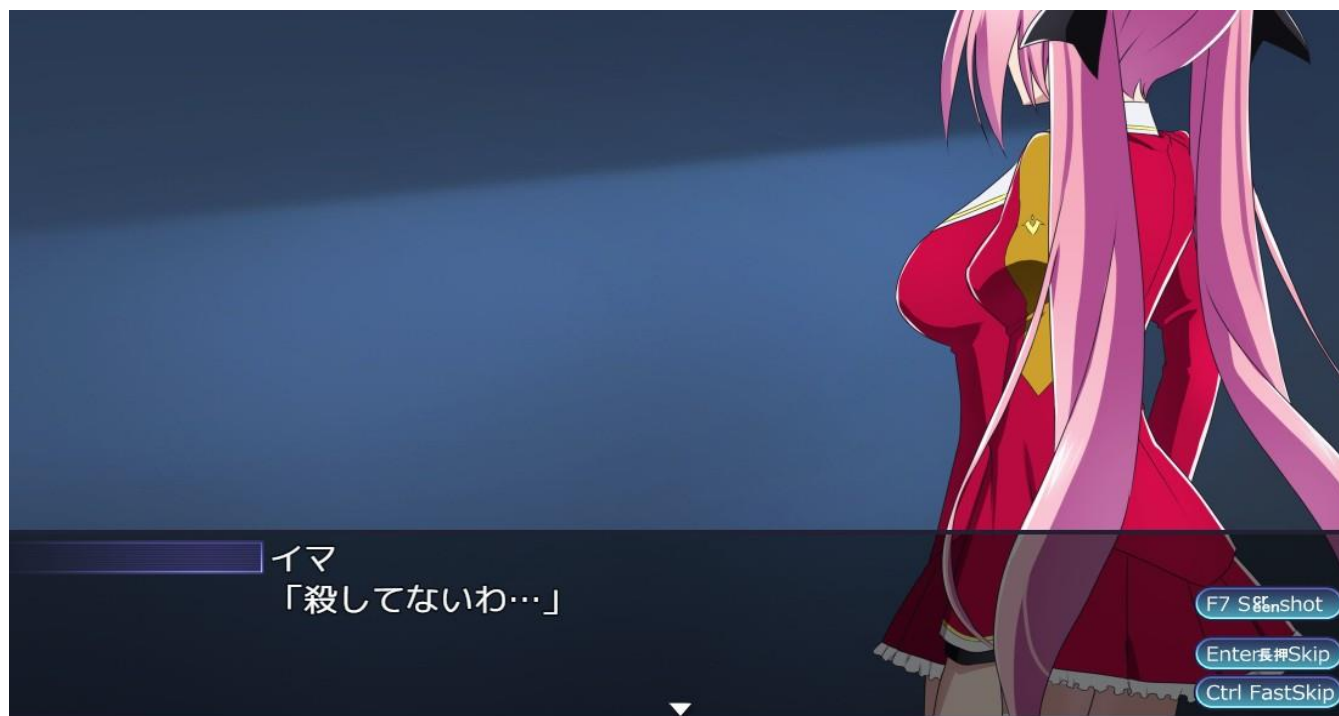

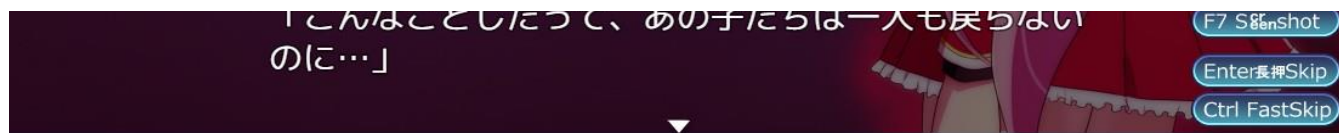

Ruta loses consciousness and goes down.

Ima, not turning around, has a voice choked with tears.

The scars left by the Demon King have not healed...

Continued in episode 2.

That's all for today...
