

About the Launch of a New Trial Version

Thank you for your various opinions/ impressions regarding the trial version 1.0.

From the opinions I've received, there were multiple parts which I thought could be improved in a more interesting way.

In particular, we will focus on two points: the erotic defeat scenes of episodes 1 and 2, and the part-time job events at the public bath. As soon as we have finished correcting and changing these, we will make an advance notice on DLsite and FANZA for the official trial version.

As for the timing, we hope to be able to register and publish it at the end of this month, so please wait a little while longer.

This time, we will introduce the implementation of 1 such modification, 'BF Strip R.P.S.'

BF Strip R.P.S.

BF (Battle Fuck) R.P.S. is a rock paper scissors minigame.

It mainly occurs in Aster and co.'s part-time job events.

For example, in version 1.0, erotic scenes suddenly occurred during the public bath part-time job, but from the new trial version, after a simple event scenario occurs, you can obtain special rewards from BF R.P.S, and may have obscene encounters.

Before making a decision, the heroine anticipates the opponent's move.

Although her prediction is correct with a decent probability, it is not 100%, so a luck factor will also be greatly involved.

You will get rewards according to your remaining HP at the end.
 BF R.P.S. will be fought against various men in multiple locations.
 The content of the reward also varies from time to time.

Every time you lose to rock paper scissors, a naughty scene occurs, and the heroine's image also changes to one more lewd.

And then.....

If a heroine's HP becomes 0, regardless if it's a safe day or an ovulating day, she will forcibly become pregnant.

If you want to earn erotic experience points, it's better to lose, but if you want to beat the game with the heroine as a virgin, you must win completely, or win so that her HP does not decrease past 4.
