

About English and Chinese Versions

The full retail versions in English and Chinese will become available at the time of release on Steam.

There are no plans to release English or Chinese translations for sale or trial versions on DLsite.

Thank you very much for waiting!

Since the new trial version is finally ready, we will release it (´▽`)

The major differences from the old trial version (Ver. 1.00) are as follows.

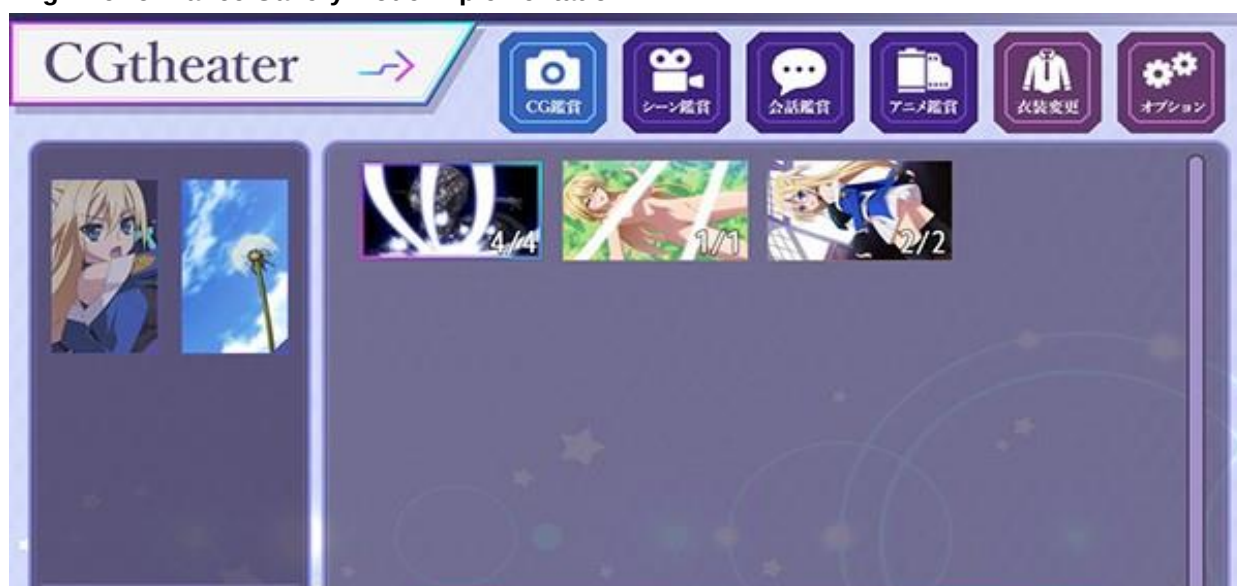

BF Strip R.P.S. Implementation

The BF Strip R.P.S. system has been implemented.

For details, please check the article of September 9th.

High-Performance Gallery Mode Implementation

Basic functions, such as scene viewing and dress-up support, are standard features.
screen.

It is a relatively common feature in commercial eroge, but I think that there aren't many doujin eroge that come with it!

Erotic Scene Modifications

Some erotic scene text and differences have been changed/modified.

Overall, we tried to soften expressions of pain more than in previous versions, as well as strengthen facial appearances and lines related to erotic expression.

Other Bug Fixes

- The operability of some battle UI has been changed/modified.
- We have fixed bugs reported in the old trial version (Ver. 1.00).
- Some NPC lines that were not implemented have been implemented.

Therefore, we think it is easier to play than Ver. 1.00.

By all means, if you'd press 'Add to Favorites' and the 'Like' button below, we'll be motivated to produce to the best of our ability, so thank you very much~~ (´▽`)
