

Chapter 3 Scene Premiere Continued

So, this will be a continuation of last week.

If you haven't seen last week's article, or haven't played the trial version yet, we recommend that you play the trial version first, and then read the Chapter 3 Scene Premiere ①, in order.

With that, let's get into it!

First, to review, this person named Lane has become a suspect in the investigation of the criminal, the "Bronze Phantom," pursued after by the police.

Aster and Ima, as students, infiltrate the Magic Academy where Assistant Professor Lane is located, and use a magic detector to measure the professor's magic, to report it to the police.

This is the task of Chapter 3.

Trouble occurs as soon as they arrive.

The mysterious creature (the monster child) that they brought with them suddenly runs off somewhere.

And, even at the end of the chase, the scent of some incident lingers.....

The person who is believed to have attacked the fallen girl disappears, and the two take care of her for the time being.

The two then wonder if this has something to do with the Bronze Phantom, and decide to follow.....

Heading into the sewers, they find the person who was attacking the girl earlier!
But here, Ima makes a suggestion to wait a little longer, see how things play out.
They do so.

That's because Ima is secretly measuring the magic of the criminal.

As a result, it doesn't match that of Professor Lane they were informed of earlier, and they suspect the Bronze Phantom may be multiple culprits.

Therefore, they continue to pursue the criminal further through the sewers.

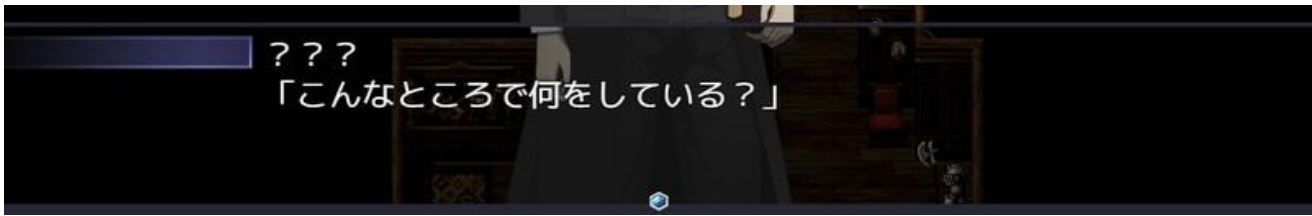

Then, the outlet to the sewers where they followed.....

Oh my, it's on the grounds of the Magic Academy!?

Does that mean the culprit is related to the Academy?

For the time being, Aster and Ima enter the building.

They are found by a person, seemingly a teacher at the Academy, who becomes suspicious, but Ima immediately outwits him, and not only do they manage to escape the trouble, the teacher also told them the whereabouts of Assistant Professor Lane.

And from here starts the exploration part of the Magic Academy, but before they know it, the monster child disappears somewhere again.

They have no choice but to search for the monster child along with exploring the Magic Academy.

In addition, exploring here is kind of like exploring on the city map, and you can do things such as make purchases within the Academy, and take lectures, kind of like preparing until you find Assistant Professor Lane.

Finally, they find Assistant Professor Lane!

Now, he's in the middle of a lecture to his students, so Aster and Ima mix in with the other students and see how things are going.

However, something happens!

Even though they don't want to stand out as they're undercover, Ima is nominated as one of the students to demonstrate magic.

Ima's a Demon.

So, if she gives it her all, something terrible will happen.

Therefore, she looks at the students' abilities, and tries to unleash magic with the power to match them.

It's the best, most stable condition, indeed!

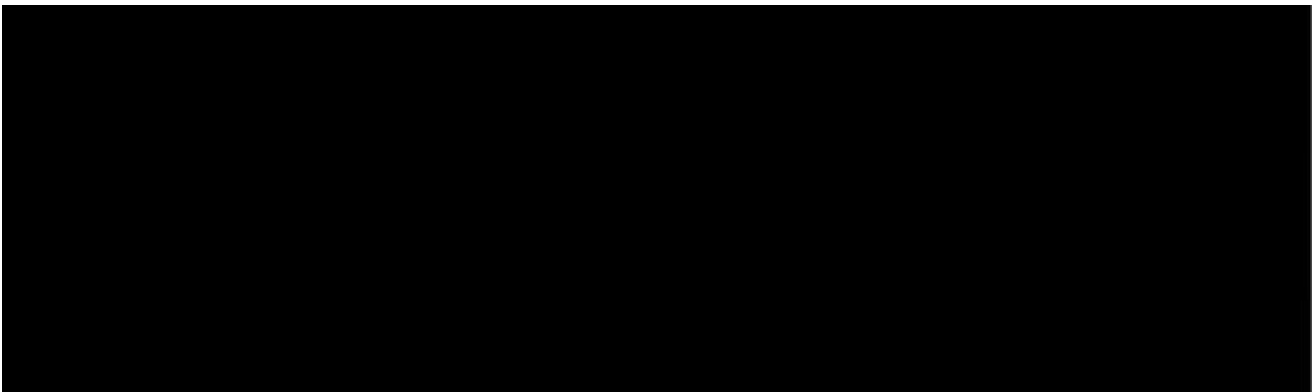

Ima, you're too harsh!

She almost shows her true nature to the students, who unleash pathetic magic despite their cocky attitudes, but here, she holds it down tightly, safely suppressing the magic for the time being.....

レーン
「ここここ、この威力は〜〜〜!？」

イマ
「魔力が制御できない…!? 嘘、なんでっ!？」

U-, um..... isn't this pretty bad?

???
「炸裂矢っ!!」

イマ
「誰——っ!？」

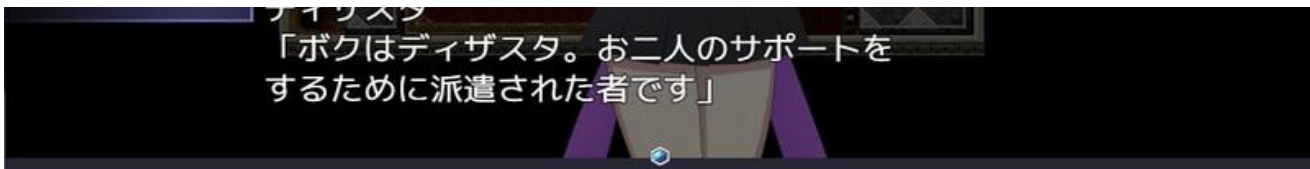

???
「こっちです！ ボクの後に着いて来て下さい！」

The students panic and run away, and the teachers evacuate the students.

A mysterious figure appears there.

The person performs a magic spell to counter Ima's out-of-control magic, and tells Aster and Ima to follow.

She's finally here! Disaster, who you've been waiting for, appears!

Apparently, Disaster is a girl who was sent to support Aster and Ima at the request of the Chief of Police.

Incidentally, the two tell Disaster that they've gotten separated from the monster child.

Ah, yes, we know.

The three then go to Assistant Professor Lane's room again to measure his magic, posing as students.

the three then go to Assistant Professor Lane's room again to measure his magic, posing as students.

And what Aster sees measuring Professor Lane's magic while Ima distracts him---

From here on, it will spoil Chapter 3, so that's it for the introduction today!

Please wait until the release of the commercial version to continue!

Regarding Yuuki's impressions up to Chapter 3,

Currently, the text of the erotic events have not been completed yet, so I was playing a version that did not

have an erotic scene even once during the playthrough, but my honest impression is that "it's interesting even without eroticism."

I've used this as a blurb before, but the phrase "you can proceed as if you were watching an anime" doesn't change in Chapter 3.

The more you advance in one chapter, the faster you want to play the next.

We think you can enjoy it with confidence, so please wait for a while until it is completed (' ▽ `)
