

Let's review 2022!

Though there's still a lot left to do, how fast time passes.....

Before we knew it, there's only 1 week left in 2022.

Therefore, we'd like to objectively summarize 2022, with the activity goals we posted at the beginning of the year!

"The Hero Never Seen Again"

We were aiming for release at the end of the year, but the volume became larger than expected, and it didn't go as planned.

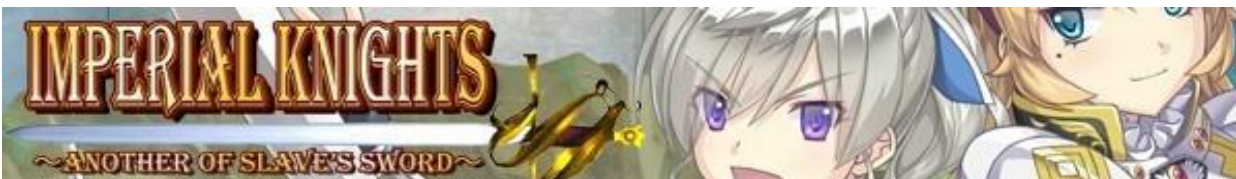

There are still delays, and it might end up being released from Mid-March→ April~May.

We have to say that our measurements regarding this were completely wrong, and we humbly apologize to those who were looking forward to it.

However, from the production side, we'd like to make something satisfying, and we didn't want to compromise anything in a hurry to release it quickly.

We will bring you a magnificent work instead, so we'd be so glad if you could understand.

"Imperial knights"

This is also laaa~~te!

The plan is to release a trial version, Ver 1.00, by the end of the year, but since Ver. 1.00 is a version with audio, it is impossible to release it at this stage.

In that respect, the trial version may not go as planned.....

The problem is the expected release date.

This is due to the increase in drawing work, from the additional increase of armor break cut-ins and erotic attack CGs, and it took a lot of time to build the basic system related to the armor break system.

As a result, the schedule got quite off track.

We are already behind to the point where we can't answer the question "When will it come out?", but it'd be best to think that a release at the end of 2023 might also be difficult.

As a guideline, we plan to "give a notice to DLsite 1 year before release," so if a notice comes out, you can expect the work to come out within 1 year.

Comic Market 100

This was the first doujinshi release of Poison, and we were a little worried, but we almost sold out at the Summer Comic Market, we exceeded 4000 downloads on DLsite, which can be said to be a great success for Poison, and we'd love to thank everybody.

I have not decided on the future production of doujinshi, but I would like to do something again.

Extra Edition Sound Works

This is about our sister circle, but we were aiming for 4 works by the end of the year, but it seems that it will be the above 3 works. (The 4th is scheduled for January 2023.)

We're amateur in sound work, so we're making whatever we want, but the more we make it, the deeper and more enjoyable it becomes.

Next year, we hope to be able to think about various things and create, instead of just what we like.

So, game production is not going as planned, but we will continue to do our best next year! Thank you very much!

And, today's Christmas!

Your present from Circle Poison is.....!

We-, we're sorry, all of the illustrators at Poison are working at full capacity, so we don't really have the time to draw any Christmas illustrations.....
