ほいすん

The image is a promotional poster for the game "Chris Survival". It features a blonde anime girl in a black police uniform with a cap, pointing a handgun towards the left. The background is red. The title "CHRIS SURVIVAL" is written in large, gold, textured letters. There are several lines of Japanese text in white and red, including promotional claims and credits. In the bottom right corner, there is a logo for "ほいすん" (Hoisun) with the number "11-03011" below it. The overall style is typical of Japanese adult game marketing.

Chris Survival is a rape RPG in which "Chris, a Female Soldier," who has washed ashore on a mysterious island, tries to escape while encountering various erotic situations.

The map in the game is characterized by the use of an open-world type system, common in MMOs and the like, where you can move anywhere from the beginning.

There are multiple endings that branch depending on the flags obtained before escaping, Chris's erotic state, and so on.

Also, erotic status also reflects all the numerical values, negative statuses, etc., in the standing image, so you can enjoy watching Chris become covered in negative statuses (' ▽ `)

If you haven't played it yet, we hope you can!

All of "Chris Survival's" illustrations are by "Yuushakandenchi," the main illustrator of our next work, "The Hero Never Seen Again."

Well, our new work is getting pretty close to completion, so we'd like advertise what kind of game it is!

The Hero Never Seen Again

As you can see from the opening, it is a very passionate story.

It is an erotic game that focuses heavily on the story, to live up to its claim of being "the most beautiful story in the history of doujin."

One of the things we're using to strengthen the story is the large number of stills that appear in the event scenes.

The number of images is close to 100.....

The story structure is also made up of 12 chapters, so I think you can enjoy the story more like when watching an anime, rather than playing a game.

As for erotic stuff, we plan to include more than 100 scenes, and the content is not just rape scenes, but also story events, happenings at part-time jobs to earn money, or punishment games within mini-games, etc.

There are quite a wide variety of sex scene genres, which is fresh content, compared to our previous works.

The combat is quite orthodox, so there is no erotic combat, but instead, it is possible to skip miscellaneous battles with small fry on the road using Super Easy Mode, where you can achieve victory just by touching them, so the combat was designed so the player can concentrate on the story and eroticism.

In terms of systems, we're quite proud of Erotic Status, Gallery Mode, and Slots.

Perhaps in these 3 points, there is no doujin game that surpasses "The Hero," we think. That's

how much we're polishing it up.

Talking about it will turn into something long, like a thick manual, so anyway, it is the most outstanding work we've ever put our effort into.

We would be so happy if you could play the trial version once!

Also, the production of "The Hero" is going great, and the future article for "The Hero" will be regarding the following.

- Voice Actresses for 3 Heroines Announcement
- Replacement of Trial Version Ver. 1.00
- Release Date Decision Report

Until then, we think there will be a few less articles related to The Hero, but we will continue to strive forward until its completion, so we hope you will wait with anticipation.

English and Chinese Versions

We think they will be later than the Japanese version, but the English and Chinese versions will be released as soon as possible.

We are making adjustments to release them, so please look forward to it.
