

Major activities in January and February (CG, creative environment, updates, etc.)

This month has been as busy as ever, with so much to learn since the beginning of January, if not during February, but two major problems that had been preoccupying me were largely resolved.

One is to transition Shion's painting style to the new environment without any discomfort.

The second is to get along with NovelAI.

Shion-chan's style has changed in this way.

1. old-fashioned Shion-chan (mainly last April~December)

2, Lost time (entire month of January)

3, Valentine's Day (mid-February) , **w h e n** too much hesitation resulted in a tea break with anime paint.

I feel that I was able to bring the texture that I am particular about, while still managing to achieve almost the same style of painting. It took a lot of time, but

.....☹

By the way, Valentine Shion is the whole article, and it is anime painted, but it is usually cute, so please do not miss it!

The second challenge was to get along with NovelAI.

It is impossible to reproduce my style perfectly, but I tried to make it as close as possible, and as a result, I think I have stabilized it in a rather good way. I would like to include the illustrations in this article if possible, but I will not include **NovelAI** illustrations because they are completely AI-based images and thus in violation of the terms and conditions.

If you are interested, this is also a public article in its entirety, so please check it out on Patreon!

Of course, there were many other problems as well, such as "the new creative environment doesn't spray semen as much as in the past, and what to do with those positions and facial expressions" and so on.

As a result, the update of BOOTH (Murata-san Artworks!) has stopped at making thumbnails for December, and the preparations for Shion's birthday on March 19 have not progressed at all.) has stopped after making thumbnails for December, and preparations for Shion's birthday on March 19 have not progressed at all.

I would like to continue with the Blue Aka pussy duty (manga painting corner) that was established last month and was rather well received, and when I have enough copies, I would like to challenge this year's goal of "1,000 copies in manga format," but I don't have time to edit them, although I have the original copies... ... 🙄

But ~~w~~ill work on all of them as soon as possible, so please wait a while

On a positive note, DLSite seems to have resumed handling AI works!

Many people seem to be lamenting the fact that the floor is isolated, but considering that at one time we took a hard-line approach that was on the verge of a Consumer Affairs Agency case to stop handling AI works on the same day, we are grateful just to be able to put our works on the floor.

Since there are only 2 titles per month, Murataya h🇯🇵 recently applied for a DLSite compilation of "Big Tits J0-Gaku 🇯🇵 Hardcore" (the first 🇯🇵). Incidentally, since the topic of "Big Tits J0-Gaku 🇯🇵 Hardcore" came up, the club activity version (swimming club and tennis club) will be coming out soon.

I am sure you will say, "I don't have time for this, but I'm still a commercial enterprise! I supervised various aspects of this work, but another person (a member of the circle) did the lettering.

This will be the last work I will make in this painting style due to the transition to the new environment, so please enjoy it! 🍷🍷

Please check Pixiv to see the changes in my creative style in the new environment! (I'm not updating at all 🍷)

2, regarding Shion-chan

Shion's birthday is March 19✓

Shion's birthday is March 19! 🇵🇹

However, the voice recording of On-chan, which was originally planned, and the manga adaptation project will certainly not be completed in time due to our busy schedule! 🙄

I think it will be in the form of an announcement on the day of the event, something like, "These are in progress! (This is the only spoiler, since I assume that those who are looking at this page are enthusiasts)" on the day of the event.

However, ~~we~~ will definitely make the "Shion compilation" on BOOTH on time for March 19, so please be patient.

As a result of the stricter restrictions on expression that were gradually imposed on Twitter (now X) last year, Shion-chan has not been able to reach new people at all, but her resilience and perseverance in the face of hard times is what makes her so attractive!

I look forward to your continued support of Moshion!

3, Technological and expressive challenges

I have already spoken at length about this item this month, so I will skip it!

To put it simply, after a while of noodling around, it's rather good (in terms of description and sound illustrations)! The problem is the overall shortness of time

4. About Murataya

Murataya started as a one-person operation, but now we have several people working together in a fun circle. I have been so busy that this month has been a dry month for me, but I have been working on various things.

At Murataya, we are planning to make J0 club activities (swimming club **and** tennis club) and new members of society (CG collection of those in suits, although we don't think we will be able to make it).

Also, I am thinking of registering my work elsewhere when I have about 3 pieces (more than 100 pages) of blue-akao mama-okoban (anime painting) (please send me your harsh opinions on support sites and pixiv). My goal is purely to create something good).

In addition, Murataya is currently working on a manga project (J0 Cosplay Club, S Sleep, Big Tits) based on a proposal from a certain scenario writer.

Murata will be preparing illustrations and supervising the entire project. It may take quite a while because it is not yet ready to be named, but 

ASMR Murataya has already delivered illustrations and scripts for two productions, and one of the voice actors has already scheduled a recording date.

I'm going to spoil it for you, because I'm guessing that if you're watching here and seeing such a long end of the story, you must be a significant Murataya fan, but the next and subsequent ASMR Murataya productions that demand the highest level of excellence are,

Big Tits J0-aku  ~Common sense modification of the earnest and strong-breasted committee chairperson with big tits, who has been degraded to the pleasure of an ojo-voice - Voice: Shiho Bunbukawara

Big Tits J0-aku  - Bakunyu Student Council President,
Oho Voice Climax, Common Sense Altered Pleasure Falling -
Voice: Chuka Yomukai Aoi (tentative)

Both are scheduled to run 120 minutes or longer. (We are planning to make both films more than 120 minutes long.) The same composer as last time will be in charge of editing, and if possible, we plan to make the entire film in Foley sound.

T h e script and illustrations have already been delivered, and they are still very good!

It is like that!

I know that many of you in Japan are busy with various things as the new fiscal year is just around the corner, but please take good care of yourself!

was Murata! 🍡.
